PERFIL PROFESIONAL

Creative Digital Designer with experience across branding, graphic design, digital communication and front-end development. **I create visual identities, websites and digital experiences that connect strategy, design and technology.** My multidisciplinary background allows me to bridge the gap between creative direction and implementation, delivering cohesive solutions across both digital and physical touchpoints.

COMPETENCIAS CLAVE

Figma (UI Design & Prototyping)
HTML5, CSS3, JavaScript & Angular
Adobe Creative Cloud (Photoshop, Illustrator, InDesign y After Effects)
Brand Identity Design & Digital Campaigns
Web Design & Front-End Development

EXPERIENCIA PROFESIONAL

Creative Digital Designer — SIWEB (2024 — Present)

Working across design, marketing and development, creating digital experiences aligned with business objectives and brand strategy. Responsible for website design, visual identity development and maintaining consistency across the company's sub-brands. I also create social media content, including static and audiovisual assets, while collaborating with the development team to build HTML templates for an AI-powered social media management platform.

Freelance Graphic Designer (2020 — 2024)

Collaborating with entrepreneurs, small businesses and marketing teams to create cohesive visual identities and digital experiences. My work spans branding, website design and development, editorial design and production, ensuring consistency across every touchpoint. Whether working independently or following established brand guidelines, I focus on transforming ideas into clear, engaging and effective visual communication.

Graphic Designer — Cen Palabras Marketing & Advertising (2019 — 2020)

As part of a multidisciplinary advertising agency managing multiple client accounts, I contributed to branding, digital and print projects. My responsibilities included brand development, website design, client communication, product photography, image editing and the creation of marketing materials such as catalogues, billboards and large-format graphics for both online and offline campaigns.
